DETAILED ACTION

Terminal Disclaimer

The terminal disclaimer filed on September 2, 2004 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US 6,036,315 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

Claims 19-21 are allowed.

The following is an examiner's statement of reasons for allowance:

As noted above, the Terminal Disclaimer is considered proper and overcomes the Double Patenting rejection. The distinguishing feature of claim 19 is that it recites that each of the lenses is canted with a predetermined amount of negative lens power which is not taught or suggested in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
